

ILLINOIS ENVIRONMENTAL PROTECTION AGENCY

158166
MEMORANDUM

DATE: March 25, 1988
TO: Review Team 
FROM: Jeff Larson, L.A. Federal Site Management Unit
SUBJECT: L1630200005 -- St. Clair Co.
Sauget Sites/Sauget
Superfund/General Correspondence

The draft Site Investigation Report for the Sauget Sites has been completed by Ecology & Environment, Inc. and will be distributed to members of the Review Team on Friday, March 25, and Monday, March 28, 1988.

With this notification, I again hope that all reviewing staff are able to adjust their work loads in order to participate in this review process. If team members are unable to dedicate the required time for a meaningful review, please notify me so that you can be replaced by another individual representing your respective background and/or interests.

A pre-review meeting will be held at 2:30 p.m. April 6, 1988 in the LPC Conference Room No. 1 in which site conditions and the history of the 18 hazardous waste sites in the Sauget/Cahokia area will be discussed. This meeting should help introduce review team members to existing and potential risk problems and Agency objectives toward final remediation.

A formal review meeting will be conducted on April 28, 1988 at 10:00 a.m. in the LPC Conference Room No. 1. The purpose of this meeting is to thoroughly review the text of the E & E report.

Thank you for your participation.

JL:kls/e-1

Review Team: Jeff Larson, Chairman
Terry Ayers, FSMU
Steve Davis, FSMU
